Grit Surface Anti-Slip Floor Plates

Grit Surface Floor Plates increase traction both indoors and outside with a carbide grit surface, which is ideal for stairways, landings, ramps, catwalks and other flat areas where a durable, anti-slip surface is needed.

- Grit Surface Floor Plates have slightly rounded edges and can be placed edge-to-edge to cover larger areas as needed. Please note that the 7" deep floor plates have a beveled nose on one side.
- Ideal for use in outdoor stairways, including landings, ramps and corridors.
- Diamond hard, aluminum oxide abrasives are combined with polymeric binders and bonded to heat-treated aluminum to form durable grit surface indoor/outdoor metal floor plates.
- Sweep, mop or hose down anti-slip floor plates for cleaning as needed.
